A Sweet Pea Specialist

Sweet Pea specialists who handle no other line are fairly common in Great Britain, but it is interesting to discover that we have at least one grower of a similar kind. The little catalog to hand from Charles Elliott, Park Ridge, Ill., contains a list of all the finest varieties of Spencer late flowering Sweet Peas; classified according to color on the lines laid down by the National Sweet Pea Society.

Mr. Elliott does well not to lose sight of the usefulness and value of the late flowering Sweet Peas; they deserve every attention despite the value of the earlier type for under glass. We have yet to see the latter type growing with the same tremendous vigor and producing the enormous flowers and stems possible with the older type.

Mr. Elliott, it would seem, has an international trade and keeps himself well posted on Sweet Peas through his membership with several societies at home and abroad.

Outdoor Sweet Peas

An interesting feature of the meeting was an exhibit of outdoor grown Sweet Peas by Charles Elliott, Park Ridge, Ill. The varieties were all new, many of the growers' own raising. It was the best display of outdoor grown Sweet Peas ever seen by any of the florists present. The exhibit was awarded the club's certificate of merit.—Exchange, June 15.

(Florist's Review.)

Charles Elliott, of Park Ridge, whose seedling sweet peas were awarded certificates of merit at the meeting of the Chicago Florists' Club June 8, won a certificate of horticultural skill on a similar exhibit of sweet peas at a show of the North Shore Horticultural Society at Lake Forest June 12.

Elliott Shows Sweet Peas.

A splendid display of sweet peas was shown by Charles Elliott, of Park Ridge, Ill. They included seven excellent varieties of his own raising, grown outdoors, bearing flowers of bright colors on long, stiff stems. Each of the varieties was awarded the club's certificate of merit; they included Highland Mary, rose pink; Miss Winifred Jones, rose pink; Miss Dora Valentine, light blue; June Bride, white; Mrs. David Lloyd George, oleander pink; Mrs. Charles Elliott, blush, and pink bicolor 8-20.

— Novelties for 1923 —

“MRS. DAVID LLOYD GEORGE.”

This is one of the finest varieties ever offered and has all the earmarks of a first class novelty.

The color is entirely distinct from anything ever offered, being a very bright pink, (corresponding with the bright pink shade seen in the Oleander blossom) on a pure white ground, while at its best it shows a edge of greenish gold.

The flowers are of the largest size, perfectly placed on stout stems, invariably in fours, and the plant growth is all that could be desired.

This variety was awarded the Silver Medal of the Newport Horticultural Society at its June Exhibition, 1922.

Certificate of Merit Chicago Florists Club.

Award of Merit, North Shore Horticultural Society, Lake Forest, Ill.

Packet of 10 seeds, 35c; 3 packets, \$1.00.

“MISS WINIFRED JONES.”

The vase of this variety was greatly admired by the members of the Chicago Florists Club, when set up at their meeting June 8th, 1922, and was awarded the Club's Certificate of Merit.

The color is a bright rosepink on a cream ground, the stems are very long and wiry, which combined with a graceful placing of the flowers produces a beautiful effect for decoration or exhibition.

Packet of 12 seeds, 35c; 3 packets, \$1.00.

“ANTONIA DELORES.”

This variety was raised in New Zealand, and is a true summer flowering Spencer of the finest type, the color is a bright Cerise, superior to “Doris” the leader in this section. Award of Merit, Dunedin Horticultural Society.

Packet of 12 seeds, 35c; 3 packets, \$1.00.

“ETTRICK.”

Pale rose pink, an improved Mavis, excellent for exhibition or decoration.

Packet of 12 seeds, 35c; 3 packets, \$1.00.
